Genuine notes: real RBI captures (Kaggle, India). Counterfeits: four illustrative fakes, each with a different invalid serial the RBI grammar check rejects — 0 0 0 0 0 (placeholder), 1234 567890 (too many prefix digits), ZZ 12AB34 (letters in number block), 9XYZ 8888 (too few digits). Subtler fakes need the CNN/VIT on the roadmap.
