Sample test notes — Real vs Fake

✓ Genuine notes (real serials, e.g. ZCC 145395)

✗ Counterfeit notes (four different invalid serials, each rejected)

Genuine notes: real RBI captures (Kaggle, India). Counterfeits: four illustrative fakes, each with a different invalid serial the RBI grammar check rejects — 0 0 0 0 0 (placeholder), 1234 567890 (too many prefix digits), ZZ 12AB34 (letters in number block), 9XYZ 8888 (too few digits). Subtler fakes need the CNN/ViT on the roadmap.

#staruiy.

A CBI officer says I am under digital arrest and must transfer all my money to an RBI verified account or be arrested today.

⚠️ This looks like a scam. Real police/CBI NEVER arrest you over a video call or ask for money transfers. Hang up and call 1930.

Risk: 78/100 - HIGH RISK

- 1. Authority impersonation: "cbi"
- 4. 'Digital arrest' / video custody: "digital arrest"
- 5. Money / verification transfer: "rbi verified account"

I can file this for you:

- Do not transfer any money.
- Save call recording / screenshots as evidence.
- Call 1930 within the golden hour to freeze any transfer.
- File full complaint at cybercrime.gov.in.

Digital arrest

Electricity cut

Lottery win

How it protects citizens

- Instant verdict on any suspicious call, message or payment request.
- Very low false positives — explainable signals, not a black box.
- Guided 1930 / cybercrime.gov.in reporting auto-filled with evidence.
- 12-language interface (verdicts localised in 5 today; rest via IndicTrans), reachable on WhatsApp, IVR and app.

Tap a sample under the chat to see a live verdict — or type your own.

WHY THIS MATTERS — NATIONAL PICTURE

₹1,776 Cr	lost to digital-arrest scams in Jan-Sep 2024 alone · MHA
11.4 lakh	cybercrime complaints registered in 2023, up 60% on 2022 · IAC / NCRB
Golden hour	a 1930 call within the first hour is the best chance to freeze a fraudulent transfer · IAC

Counterfeit agent — accuracy across denominations

(controlled capture: scanner / guided app frame / bank counter)

Evaluated against 14 genuine RBI notes across 7 denominations (controlled capture). Source: Genuine RBI Mahatma Gandhi New Series notes (Wikimedia Commons). Real counterfeits can't be used (illegal) — fake-detection is shown via a synthetic print-quality stress test. A real-world mobile-photo stress test (195 Kaggle images) is documented in the README — it quantifies the v1-heuristic ceiling and the CNN upgrade on the roadmap.
