Tap any note above to load it into the scanner and run the analysis. Genuine notes: real RBI captures (Kaggle, India). Counterfeits: four illustrative fakes, each with a different invalid serial the RBI grammar check rejects — 0 0 0 0 0 (placeholder), 1234 567890 (too many prefix digits), ZZ 12AB34 (letters in number block), 9XYZ 8888 (too few digits). Subtler fakes need the CNN/VIT on the roadmap.

How to read this: each separate complaint looks unrelated — but scammers reuse the same phones, mule bank accounts and crypto wallets. Drawn as one map, that shared infrastructure **links the victims into gangs**. Big red dots = the **kingpin** account everything funnels into. Red lines = money moving. Click a campaign card on the right to highlight its gang.

A CBI officer says I am under digital arrest and must transfer all my money to an RBI verified account or be arrested today.

⚠️ **This looks like a scam. Real police/CBI NEVER arrest you over a video call or ask for money transfers. Hang up and call 1930.**

Risk 78/100 - HIGH RISK

- 1. Authority impersonation: "cbi"
- 4. "Digital arrest" / video custody: "digital arrest"
- 5. Money / verification transfer: "rbi verified account"

📄 **I can file this for you:**

- Do not transfer any money.
- Save call recording / screenshots as evidence.
- Call 1930 within the golden hour to freeze any transfer.
- File full complaint at cybercrime.gov.in.
